

# Quikrete® Products

## Ready to Use Concrete Mix

The original 4000 psi avg. compressive blend of portland cement, sand, and gravel or stone. Just add water. Use for setting posts and general concrete work.

40 lb. bag      CONCRETE40  
80 lb. bag      CONCRETE80

## Portland Cement

Can be mixed with aggregate and other ingredients to make concrete mix, mortar mix, and base coat stucco.

47 lb. bag      CEMENT47  
94 lb. bag      CEMENT

## Masonry Cement Type N

Mix with 3 parts mason sand to form mortar mix for masonry projects.

70 lb. bag      MORTAR

## Fast Setting Concrete Mix

Special Blend of fast setting cements, sand, and gravel designed to set hard in 20-40 minutes. Sets posts without mixing. Pour dry mix into hole and soak with water.

50 lb. bag      FASTCRETE

## Mortar Mix

A blend of masonry cement and graded sand. Use for construction and repair of brick, block, and stone. Also good for barbecues, pillars, walls, and planters.

60 lb. bag      MORTAR60

## Sand/Topping Mix

Uniformly blended mixture of portland cement, commercial grade sands, and other ingredients. Use for repairing concrete surfaces less than 2" thick, chimney caps, thick beds for ceramic tiles.

80 lb. bag      SANDMIX80

## Black Top Repair - Commercial

A permanent blacktop patch for patching holes or making large repairs in blacktop and asphalt surfaces. Doesn't require heating or mixing. Just pour directly out of bag. Can be formed and compacted. Can be used all year round in cold or hot weather.

60 lb. bag      BLACKTOP
