

## Fencing

Once you've established your vineyard, protecting it from predators is the next step to ensure many successful harvest seasons. Augusta Co-Op stocks a wide variety of fencing products to help you protect your vineyard.

### Wood Posts

- CCA treated to a minimum of .40 standard
- A variety of sizes are stocked from 3-6" in diameter and 7-10' in length
- Bundles of other sizes can be special ordered

### Trellises & Cross-Arms

#### T-posts

Augusta Co-Op stocks quality medium weight t-posts in 5, 6, 6.5, and 7 foot lengths. Galvanized t-posts are also available for applications with Stay-Tuff® deer fence.

#### Wire

We stock Stay-Tuff® hi-tensile woven wire 96" tall or taller to help prevent intrusion by deer as well as high tensile smooth wire for trellis fencing.

#### Wire Accessories

Gripples®, crimp sleeves, crimping tools, spinning jenny, earth anchors and more.

#### Electric Fencing

An extensive selection of products are available from Dare®, Parmak® and Gallagher® to meet your electric fencing needs.

#### Plastic Deer Netting

Suitable for small sized vineyards, plastic netting is easy to handle. Rolls are 7 ft. tall and are available in lengths of 100 or 330 ft.

## Custom Application Services

For many vineyards, it is not feasible to own application equipment for fertilizer, lime, and crop protectants.

Augusta Co-Op has the equipment and know how to provide these custom services to you. From the largest sprayer to our smaller, specially equipped UTV rig that fits in between rows of grapevines, Augusta Co-Op has the equipment to serve your needs.

Also, our drivers undergo extensive training each year to update their skills. Years of on the job experience ensure that your vineyard inputs are applied correctly and efficiently.

Spend more time managing your vineyard and leave the product application issues to an experienced team!

## Fungicides

One of the most challenging aspects of viticulture in Virginia is keeping fungal diseases at bay. Powdery mildew, downy mildew, black rot, anthracnose and a host of other fungal diseases have the potential to affect grape vines throughout the growing season.

Augusta Co-Op stocks a variety of fungicides including Ziram®, Penncozeb, Ridomil Gold®, and others to help you control fungal diseases. If a fungicide is not stocked that you need, it can be ordered and received quickly through Augusta Co-Op's extensive supply network.

## Fertilizer

Augusta Co-Op operates its own fertilizer blending facilities. Whether it's a standard 19-19-19 nutrient mix or other custom blend, Augusta Co-Op provides the nutrients to help your grapes reach their full production potential. Fertilizer is available to be applied as a liquid or dry material.

Augusta Co-Op also stocks specific nutrient blends such as Trisert-K+ and Black Label® Zn that get your vines off to a faster start. For more information about our different fertilizer blends, contact our fertilizer departments in Staunton, Scottsville or Bedford.

## Herbicides

Existing grasses and weeds can provide a barrier to establishing grape rootstock or can compete against the vines after they become established. Augusta Co-Op stocks a large variety of herbicides to control weeds and keep them from stealing valuable nutrients away from your grapevines.

*Welcome to Augusta Co-Op! We are proud to announce that we have expanded our extensive product lineup to include more vineyard items for the growing Virginia viticulture industry. In addition to the items that we have stocked for a number of years, we are adding more items specifically designed for vineyards. Product categories are highlighted throughout this guide.*

*At Augusta Co-Op, we know that each and every vineyard reflects the individual characteristics of the soil and the geography where the vines grow. That's why Augusta Co-Op offers Nutriscription® - A complete nutritional prescription service for your vineyard. This provides the advantage of "real time" assessment of your vineyard nutrient needs. Nutriscription® recommendations are tailored to fit each individual vineyard.*

*Augusta Co-Op vineyard products and services are conveniently located right in the heart of Virginia wine country. Augusta Co-Op has 5 locations to serve you. Delivery service is available in selected areas. Augusta Co-Op has been serving Virginia agriculture since 1929. Stop by or call us today!*
