B BULK -201, -901

Purina® Kid Goat Starter/Grower 18 R20

Our commercial Kid Starter is an 18% protein, 2% fat, 16% fiber feed ration formulated to help ensure a proper start for your kids. Utilizing a 3/32" micro pellet helps to provide optimal intakes. Add to this a feed medicated with Rumensin® to help with the prevention of coccidiosis and your kids will get the start they deserve.

3004551-206 (906)

Honor® Show Chow® EXP 15 Pellet DX

Designed as a top shelf show feed and a great creep for wether-type kids. This is a popular creep that can be used as a grower/finisher and helps promote early intake and helps make kids bloom and shine quickly. A mini pellet that is a high-energy formula with 15% protein and 5.5% fat and medicated with Deccox®, it also features all you would expect from a Show feed including Purifer™, TASCO®, Zinpro® and FulFill®.

New

3004990-206

Purina® Sheep and Goat Receiving Ration DX .0033

This high roughage feed supports rumen health and is quite palatable. Added Lambitine™ technology for increased consumption to get fresh weaned kids onto feed quickly and reduce stress.

Grind and Mix (Concentrates)

3004594-206

Purina® Goat Charge Conc NM PLT

Purina® Goat Charge Concentrate NM is the non-medicated version of our popular 36% protein pellet designed to be mixed with local grains allowing customers the option to "customize" their goat's rations during the growth, development, lactation or maintenance life stages.

3004595-206

Purina® Goat Charge Conc R80

Purina® Goat Charge Concentrate R80 is a 36% protein pellet designed to be mixed with local grains allowing customers the option to "customize" their goat's rations during the growth, development, lactating or maintenance life stages. By-pass proteins, FulFill® yeast culture and Availa-4® minerals are just a few features that make this concentrate work in your operation. Mix at a rate of 20% to 35% along with ingredients like corn, oats, sunflower seeds and molasses to develop a diet that meets your goat's exacting needs. Purina® products deliver the nutrition and performance you expect. Medicated with Rumensin® to help with the prevention of coccidiosis.

Purina® Goat Chow

For all breeds and life stages of goats Purina® Goat Chow® goat feed is a textured feed made with high quality grains, plant proteins, vitamins and minerals to help your goats reach their full potential. Nutritionally balanced to support overall health and longevity. Formulated with high quality plant proteins to support optimal growth, reproduction and milk production. Essential fatty acids to support healthy skin and coat. Natural oils from pure ingredients help keep skin supple. Formulated with the proper calcium to phosphorus ratio to support strong bones and urinary health. This product has stood the test of time, but is getting a branding refresh with a name change to “Goat Feed”. It is currently sold in a “Goat Feed” bag and the tags will update to match soon as well.

3004596-206

Purina® Goat Grower 16 DQ.0015

B BULK -201

Purina® Goat Grower 16 DQ.0015 is a pelleted complete feed formulated for the optimum growth, development and maintenance of goats. Formulated to be nutritionally complete to help provide the proper balance of high-quality proteins, vitamins, minerals and other nutrients. Manufactured in a pelleted form to help reduce sorting with added urinary acidifiers, ammonium chloride and/or ammonium sulfate, to help improve urinary health. Medicated with Deccox® to help with the prevention of coccidiosis. Whether you raise backyard goats, meat goats or dairy goats, Purina® Goat Grower 16 DQ.0015 feed is designed to meet your goats exacting needs. Purina® products deliver the nutrition and performance you expect.
