Bonide Boric Acid Roach Powder EPA Reg. No. 4-460

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
1. Shake bottle, lift spout, squeeze bottle to spray under appliances, sinks, furniture, around drains, along all sides of closet shelves, under shelf paper, on ledges, wherever roaches develop paths. Be sure to treat basements, attics and garages.
2. Tap a line of powder by holding bottle horizontally and gently tapping spout on surfaces to be treated. Put one line of powder in every drawer, around sides and backs of all cabinets and storage shelves. In cracks and crevices behind sinks and toilets. Also treat behind all office furniture and particularly in file drawers. One pound normally treats an average home of 2,000 square feet. New construction treatment in wall requires one pound for every 500 square feet.

STORAGE AND DISPOSAL	
STORAGE:	Store only in original container, in a cool dry place inaccessible to children and pets and away from feed and foodstuffs.
DISPOSAL: <i>If empty:</i> <i>If partly filled:</i>	Do not reuse this container. Place in trash or offer for recycling if available. Call your local solid waste agency or call CHEMTREC at 1-800-424-9300 for disposal instructions. Never place unused product down any indoor or outdoor drain.

For best results, Bonide Boric Acid Roach Powder should be used in every room of a building and applied in every place indicated.

HOW DOES BONIDE BORIC ACID ROACH POWDER WORK?
Since Bonide Boric Acid Roach Powder is non-repellent roaches do not avoid it. When they get near it, the electro-static charged powder clings and is carted back to their nests.
