

Purina® Strategy® Healthy Edge®

Pelleted & Extruded Horse Feed

For Maintenance, Performance and Senior Horses

Health inside and out. A nutritional edge. Two things every horse owner wants for their horse, and what Strategy® Healthy Edge® horse feed is designed to deliver. Nutrition that helps horses look amazing, feel great and perform at their best.

Strategy® Healthy Edge® feed gives horses age 2 and older the nutritional edge needed to support nearly any lifestyle from recreation to performance to retirement. The combination of high quality pellets and extruded Amplify® high-fat nuggets delivers a controlled starch and sugar, higher fat and fiber formulation with moderate calories and balanced nutrition. Made with only high quality, wholesome ingredients and extensively tested at the Purina Animal Nutrition Center, Strategy® Healthy Edge® horse feed is easy for horses to digest and hard for them to resist.

High Quality Ingredients for Healthy Appearance and Performance

- **Amplify® High-Fat Nugget.** Multiple sources of fatty acids including stabilized rice bran, vegetable oils and flaxseed helps maintain body condition, shine and bloom.
- **Protein that Performs.** High quality sources chosen for their optimal amino acid profiles support muscle tone and overall performance in a moderate protein formula.
- **Highly Digestible Fibers.** Multiple fiber sources including beet pulp provide slow-releasing fuel for sustained performance.

Formulated with Outlast® Supplement for Gastric Health and Proper pH

- **Strategy® Healthy Edge® contains the same unique gastric support ingredients** found in Outlast® supplement, which support gastric balance to give you and your horse the confidence to perform

Controlled Starch and Sugar with Higher Fat and Fiber

- **For horses with moderate calorie needs,** it helps maintain optimal body condition.
- **For horses sensitive to soluble carbohydrates,** it provides controlled starch and sugars.
