WEIGHT BUILDER™

Premium Concentrated Feed Supplement

**Adds Calories Without
the Risk of Digestive Upset**

Provides for Healthy Skin & Glossy Coat

Rich in Omega-3 Fatty Acids

For All Classes of Horses
Net Weight 28 lbs (12.7 kg)

Traditionally, horses needing more calories for increased stamina were fed more grain. However, excessive amounts of grain can lead to digestive upset, such as colic, diarrhea and even founder. Plus, grains are digested as simple sugars, which can make a horse "hot" or hyperactive.

Recently, researchers have discovered the benefits of adding fat to horses' diets:

- Maintains body weight.
- Provides for healthy skin, coat and overall body condition.
- Easily metabolized – no digestive tract upset.
- More calories than equal weights of grain. Less volume needs to be fed.
- Allows for decreased heat production.
- Spares glycogen stores in muscles.

THE UNIQUE FORMULA OF WEIGHT BUILDER™ SUPPLEMENT:

- Contains 40% fat.
- Rich in omega-3 fatty acids.
- Has added calcium to help maintain calcium/phosphorus ratio.

FOR USE IN HORSES ONLY.
Recommended to support healthy weight.

GUARANTEED ANALYSIS per serving

Crude Protein (min).....	14.0%
Crude Fat (min).....	40.0%
